

# TELESIS TWPCOM

## Thermoplastic Wet Location LED Combo Exit Sign

The TWPCOM is designed for use in Wet Locations and NEMA 4X applications, offering reliable performance in challenging environments. The two top-mounted LED heads provide the required 90 minute operation, with Self-Diagnostics and Remote Capacity included as standard. The EXIT is illuminated with long-life, high-brightness red or green LEDs to order. CEC Title 20 Compliant.

### CONSTRUCTION

- High impact thermoplastic housing with a UV resistant clear polycarbonate faceplate
- Integrated gasket to ensure protection from water ingress
- Suitable for use in NEMA 4X and wet locations
- Field selectable knockout chevron directional indicators
- Sealed test switch and status indicator

### ELECTRICAL

- 120/277 VAC field-selectable inputs
- UL Listed for Wet Location 10°C to 40°C
- Supports PRW Multi-Volt remote heads
- Remote capacity standard 3W at 3.6VDC
- Will operate 3 single head (1W each) remotes or 1 double head (2W total) remote. Max load: 3W or can be used for longer run time with no remotes connected
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing

- Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours
- 3.6V long-life, maintenance-free, rechargeable Nickel Metal Hydride battery
- Self Diagnostics, Self-Test feature is standard
- Internal solid-state transfer switch automatically connects the internal battery to LED board and LED lamp heads for minimum 90-minute emergency illumination

### ILLUMINATION

- High brightness, energy efficient long-life Red or Green LED
- Bright white LED emergency lamps 1.17 Watt each

### CERTIFICATION

- UL 924 Listed for wet locations 10°C to 40°C

### WARRANTY

- 3 year limited warranty - view complete warranty terms online at [www.evenlite.com/terms-warranty](http://www.evenlite.com/terms-warranty).
- Lamp heads are not included
